Are you looking for a 6 or 7 figure job?

As President of JobBait, I've helped hundreds of executives land the job they want by sending a value proposition letter directly to the decision-makers most likely to hire them. Here are a few of the benefits:

- 85% land a job in less than 90 days when they do it right
- 50% get multiple, simultaneous job offers
- Competition is rare

The payback averages 9 to 1. Executives typically invest one month's pay (primarily for printing and postage) to save 9 months of job-hunting time. Plus, they get maximum salary negotiating leverage.

Please call when you're free and let's explore your options and benefits.

Sincerely,

Mark Hovind

PS. You can also do it yourself. [JobBait.com](http://JobBait.com) has details.
